Fast and willing learner

Attention to detail

PROFESSIONAL EXPERIENCE

Full-stack Java Engineer August 2020 - Present
Smart Data Solutions Eagan, MN

- Developed, tested, and deployed software revolving around automatic processing of health insurance claims
- Worked mostly with a JAVA and SQL backend, fixing and maintaining legacy code as well as implementing new functionality
- Also worked on the front-end improving and maintaining our provider portal
- Working on strict timelines, created a custom portal for a new client in order to streamline COVID vaccine claim processing

Technical Solutions Engineer, August 2017-April 2020
Epic Systems Verona, WI

- Provided a wide variety of technical support for 4 large hospitals across the US, ensuring their success using our software
- Led two successful patient conversion projects, converting all patients and clinical data into our system from their legacy system
- Contributed to various stages of software development (Reviewing designs, writing/reviewing/testing code)
- Became an advisor and mentor on my project
